

CHILD CAR SEAT RECALLS, DEFECTS AND SAFETY NOTICES

Here's an up-to-date, easy-to-read, list of recalls and safety notices for child car seats meeting Federal Safety Standards (1/1/81 to present). Like automobiles, toys, and other products, a child's car seat may be recalled due to a defect that could result in injury. Most problems are corrected by replacing a free part received from the manufacturer. **A personal one-year subscription costs only \$20 or call for information about group subscriptions.** Please include your payment with the order form.

Compiled by the Safety Restraint Coalition, the list is reviewed annually for accuracy by all car seat manufacturers. Subscribers automatically receive an updated list whenever a new recall is announced. This is a valuable resource for advocates, children's resale shops, instructors/technicians, educators and agencies, and a must for car seat checkup/inspection clinics.

Now available via **e-mail** in an easy to read, up to date format. The list, sent as an *Adobe Acrobat* file, can be opened and printed using the free *Adobe Acrobat Reader* downloaded from:
<http://www.adobe.com/products/acrobat/readstep2.html>.

Email benefits include:

- Speedier delivery
- Print as many copies as you need directly from your computer
